Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Beoni (5,814,104).

Claim 13 - element -30- is a housing including a stud portion -38- extending from the body and including a porous layer -32-, -34- carried by a peripheral surface. Element -32- has a non-circular cross section. The device is capable of being implanted proximate the patient's ear canal.

Allowable Subject Matter

Claims 14 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-12 and 16-30 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach or fairly suggest a method for implanting a hearing

aid including providing a hearing aid housing with a stud projecting therefrom and transporting the housing through a lumen in a tunneling shaft and positioning the stud in a hole opening into the ear canal, claim 1, a combination of insertion instruments and a hearing aid housing as set forth in claim 16, or a device for implantation including a non-circular cross section and transducer as claimed in claim 14.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patents 5,931,838, 6,955,677, 4,668,222 and 5,814,104 teach related implantable housing.
